VATAN WAIKAR

+91 7350200022 — vatanwaikar@gmail.com — Pune, India

linkedin.com/in/vatanwaikar — github.com/vatanwaikar

OBJECTIVE

Full-Stack Developer specializing in **Java (Spring Boot)** and **ReactJS**. Experienced in building scalable backend systems, REST APIs, secure authentication, and modern frontend interfaces. Seeking a full-stack role where I can contribute to both backend architecture and responsive UI development.

EDUCATION

Bachelor of Mechanical Engineering, Savitribai Phule Pune University 2018 – 2021
CGPA: 8.08

Diploma in Mechanical Engineering, MSBTE 2016 – 2018
CGPA: 7.34

SKILLS

Backend	Java, Spring Boot, Spring MVC, Hibernate, JWT, REST APIs
Frontend	ReactJS, JavaScript, HTML5, CSS3, Axios
Database	MySQL, SQL
DevOps	Docker, Kubernetes, CI/CD Pipelines
Caching & Performance	Redis, HikariCP
Payment Integration	Razorpay, Cashfree, Webhooks
Version Control	Git, GitHub
Tools	IntelliJ IDEA, VS Code, Postman, MySQL Workbench

EXPERIENCE

PJSofttech Pvt. Ltd. Apr 2024 – Present
Full Stack Developer (Java + React)

- Built and deployed **microservices-based backend systems** using Spring Boot.
- Developed responsive **ReactJS UI screens** for admin dashboards and user modules.
- Created reusable **React components, forms, API services** using Axios.
- Implemented **JWT authentication** end-to-end (login UI + backend security).
- Integrated **Razorpay and Cashfree** payment flows with UI + backend sync.
- Improved performance using **Redis caching** and **HikariCP**.
- Managed multiple deployments via **Docker, Kubernetes, and CI/CD pipelines**.

PROJECTS

Vartmannirnay (Live on Play Store) — Play Store Link

Full-stack test series platform. Backend built with **Spring Boot** and frontend modules developed using **ReactJS**. Features include test purchase flow, performance analytics, JWT auth, and payment gateway integration.
Tech Stack: Spring Boot, React, MySQL, Redis, Docker, Kubernetes

Super Admin Platform — Role Access Management

Developed both backend APIs and frontend interface for multi-tenant admin access. Implemented **React dashboards**, protected routes, and Spring Boot authentication APIs.
Tech Stack: React, Spring Boot, MySQL

CERTIFICATIONS

Full Stack Java Developer — Firstbit Solutions
